CH-02 / Barn Church 200 with Fellowship Hall

Cover and general notes

Issue 1, 2026-10-09 (concept drawing set) | Diagrammatic; dimensions in feet-inches

SHEET INDEX

G0 Cover and general notes
A1 Dimensioned floor plan
A2 Area and room schedule
A3 Roof plan
A4 South / north elevations
A5 East / west elevations
A6 Building sections
A7 Door and window schedule
M1 Materials, appearance and finish schedule
Q1 Questions for the church's architect, engineer and building official
V1 Geometry illustration

SCOPE AND LIMITS

Church: CH-02 Barn Church 200 with Fellowship Hall - Issue 1, 2026-10-09 (concept drawing set)
CONCEPT PLAN SET - NOT FOR CONSTRUCTION. It shows the layout, sizes and appearance of one church building design. It is not a set of construction documents.
Offered only for one church building built in North Dakota. As BarndoVista reads those states' licensing laws, a person who is not a licensed architect may prepare plans for a building of this size there; that is our reading, not legal advice, and the building official decides what the permit requires.
The plan license does not cover a building in any other state.
Before anything is built, the church's licensed architect or engineer (where the state or the building official requires one) and the local building official decide the final design, the code analysis and the construction documents.
Not included: structural, foundation, electrical, plumbing, mechanical or fire-protection design; code analysis; occupant load, exit and accessibility determinations; any seal or stamp.
Seats and table places shown are the number drawn, for planning only. The building's occupant load is determined under the building code by the church's design professional and the building official.
Measured from this drawing: building area (enclosed) 9,720 sq ft; with covered porches 10,552 sq ft; to the edge of the roof overhangs 11,446 sq ft; volume 207,406 cu ft (plate and ridge lines, porches at their highest point; slab and roof build-up not included); highest inside ceiling 27'-9"; one story. Each state's own measuring rule governs.
Dimensions in feet-inches from the layout's inches; verify every dimension on site.
Drawn by the BarndoVista drawing generator v6.3 (2026-10-09).

DRAFTING CHECK

Drafting check: passed (a drafting check, not a code review).

SAMPLE - not for construction; dimensions removed. The full set is sold separately.

SAMPLE - BarndoVista

G0 Cover and general notes

Church concept plan set - not for construction. The church's licensed design professional, where required, and the building official decide what is built.

Structure, foundations and building systems are designed by the church's engineer.

CH-02 / Barn Church 200 with Fellowship Hall

Dimensioned floor plan

Issue 1, 2026-10-09 (concept drawing set) | SAMPLE: dimensions removed

SAMPLE - not for construction

PLAN NOTES

Pews: 2 x 3 = 6 seats
Pews: 18 x 6 = 108 seats
Pews: 10 x 9 = 90 seats
Round tables: 17 x 8 = 136 places
All EXIT doors are shown swinging outward. Final door design is decided locally.
Structure by the church's engineer.

SAMPLE - not for construction; dimensions removed. The full set is sold separately.

A1 Dimensioned floor plan

Church concept plan set - not for construction. The church's licensed design professional, where required, and the building official decide what is built.

Structure, foundations and building systems are designed by the church's engineer.
